Xtreamforex Copy Trading

Trading made accessible!

A powerful solution which automates trading

Full control of your account

Performance fees for mutual benefits

Diverse trading strategies

One innovative trading solution

Xtreamforex copy trading is a great tool which allows traders to join forces with each other to try and master the markets. Individuals can create trading strategies and earn a Performance Fee by taking up the role of a Strategy Provider, or copy trades as a Follower without needing to actually trade or to closely follow the market ups and downs.

Sign up under any of the Strategy Providers and copy any strategy you wish.
